

LEAD-ACID BATTERY

FEATURES

- **Long-Life Technology:** The grid of advanced manufacturing technology, grid greatly improve the ability of corrosion resistance, using the floating battery.
- **High rate discharge and performance is good,** the capacity is enough
- **High security:** Using flame retardant material battery shell, cover design, use more at ease.
- **Low self-discharge rate:** 20°C at room temperature, standing for 28 days, the battery self discharge rate of less than 2%, higher than the industry standards.
- **Compatible with UPS**
- **Convenient for installation and maintenance:** The use of a unified embedded terminal design, good current performance, installation and maintenance is simple and convenient.

Model	Description	Dimension(L*w*th)mm	Package Pcs/ctn	Color
3FM-4	6V4AH	70*47*101	20	Green
3FM-7	6V7AH	34*15*93		
3FM-10	6V10AH	43*99*149	12	Black
3FM-12	6V12AH			
6FM-4	12V4AH	90*70*101	15	
6FM-7	12V7AH	152*66*94	10	
6FM-9	12V9AH	152*87*106		
6FM-12	12V12AH	152*99*95		
6FM-17	12V17AH	180*76*168	4
